FULLY REVERSIBLE

With Kai reversible U-shaped desks, enjoy the flexibility you need. Kai bridges connect desk shells and credenzas to create custom workstations. Kai bridges are compatible with all desk and credenza shells, but when paired with extended corner desks and credenzas the workstation becomes handed due to the inner curve.

Product Code: I-W4

IRIZE BUILD TIPS

iRize standing desks fully integrate with our Kai and Rayne laminate product lines and our Fusion metal base line. Take the foot off the T-leg of the L-Shaped base to create a post and put it under an existing desk shell. For added stabilization, consider installing a 45 degree angle bracket (MB2003).

Did you know that iRize height adjustable bases can be mobile? Although they arrive with adjustable glides, there is a 4 pack of optional casters (I-W4) that work on both hardwood and most non-plush carpets.

Need more storage? Add a credenza with a hutch, mobile pedestal, matching bookcase, lateral file or storage cabinet to complete your office.
